

A360 Viewer Widget Toolkit

Embed the A360 viewer on your website to allow customers to try out A360 for free. Users can drag & drop over 65 2D & 3D file formats to view & share their designs.

Position yourself as a leader of cloud technology solutions. Showcase your knowledge of the A360 product, and allow your customers to try the viewer right on your website. By dropping their design models into the viewer widget, they can view their designs right in their browser and share them with others -- no downloads or software needed.

DOWNLOAD THE WIDGET HERE: <http://autode.sk/1oyjsV1>

1. Choose one of the 4 widget banner sizes
2. Drop the code into your website to embed the widget
3. Show customers how to try the widget on your webpage with one of their design files

Join the many resellers already using the widget to engage their customers:
